

Protect Your Data ...And Delete It!

Samsung Galaxy S5

To reset your device and delete all data, follow these step by step instructions.

Select/Press

- **Settings**
- **Back Up and Reset**
- **Factory Data Reset**
- **Reset Device**
- **Erase Everything**

The device will turn off and restart, it is important not to switch off the device during reset. Make sure that the device has enough battery life to complete the reset and restart process.
